MEMORANDUM FOR: Mr. John M. Clarke

Attached is a preliminary report on the aspects of conversion from the RCA 501 to the IBM 360 and its impact on our true goal, namely, implementation of the Support management information system. Unless the Office of Computer Services can demonstrate some unusual advantages not now evident, the conversion route appears to be an unprofitable exercise. Additionally, it would jeopardize time-wise the management information system.

25X1 [redacted] will return on Monday and I propose to arrange a session with Chuck Briggs, Bob and other interested parties to consider this proposal.
